“Teaching science is about teaching everyone that enters your classroom how to think critically about the world around us, to form opinions based upon evidence, to develop the skills necessary to participate fully in our democracy. Teacher Prep prepares you for the most satisfying career you could ever have - inspiring young people to reach their full potential.”

Dr. Andrew Zwicker
Princeton Plasma Physics Lab
Member of the NJ Legislature

INTERESTED IN TEACHING CHEMISTRY?
Info session with Teacher Prep students, alumni & faculty

Monday, December 11th - 8:00PM
138 Lewis Library
