Join us for a summer institute designed to deepen teachers’ knowledge of Science and Engineering Practices, Crosscutting Concepts, and Disciplinary Core Ideas as identified in the Next Generation Science Standards (NGSS)

**Climate and the Ocean**

July 9-July 13, 2018  ◆  8:30am-3:30pm

FOR TEACHERS OF GRADES K-8

The ocean plays many important roles in our climate. The ocean records changes in climate, modifies those changes, and is significantly impacted by climate. We will explore various interactions between the ocean and climate systems.

The program fee is $250 for registrations received on or before 4/6/18 and $300 after. Lunch will be served.

For more information and application visit teacherprep.princeton.edu/quest2018 or contact Dr. Anne Catena acatena@princeton.edu (609) 258-2536

This program will take place at Princeton University with content experts Danielle Schmitt, Geosciences and Dr. Steve Carson, J.M. Witherspoon MS and is sponsored by the Cooperative Institute for Climate Science.
